Agenda Item/Topic	Highlights/ Discussion	Outcome/ Assignments	
Welcome – Kay - Introduction/New members - Approval of December 21st Minutes	Cindy motion to approve minutes. Mary Helen second.		
2023 – 2025 CHIP report Final - Approval - Dissemination	2023-2025 CHIP finalized and sent out to the group. - Utilized various frameworks to evolve the process and showcase the work that is being	- Making sure capture everything we were working on and includes everything we need for requirements. - Committee's final review of the document. - If you feel your agency or any information was left out, please let Kay know and we will include it.	

Meeting Minutes

	done to meet needs.	• Separate actions are presented in the document in various ways to ensure we are disseminating the correct information to the community. • Health Departments have looked through the document to give final approval. • Motion for approval by Yvette; Second by Mary Helen.
2023-2025 CHIP Planning- Strategies overview- Co-leads • Digital Wellness and Safety • Behavioral Health Supports for school staff within their school districts • Formalized partnerships between behavioral health providers and medical offices/urgent cares • Guaranteed funding for addressing non-treatment barriers for behavioral health access • Digital Platform for SDOH	• Elaine asked are we working with schools who are already doing work around key educational components in Digital Wellness and Mental Health in the schools? • Most committees hold monthly meetings to help make it easiest to participate and get more brainstorming and action planning done.	• Kay reported on the Digital Platform for SDOH. Dr. Mader leads this effort. She is working on SEI network and Looking into Digital Platforms that are already operating that assist social and healthcare needs; Ohio University has been contracted with to gather data to justify how this would be beneficial and useful in our community; Working to get finalized report for Health Improvement Summit in June to disseminate information; No action plan at this point but pre-action planning is taking place. • Formalized Partnerships committee lead by Amanda, Ashley and Eric; Finalized survey online for referring patients to behavioral health; Focusing on behavioral health and physical health link; Working to give information to providers about importance for this; Hoping to have results by Summit in June. • School-Based strategies lead by Kay and Patti; has two initiatives under this umbrella; Lots of information on Digital wellness; Looking for resources and information to help assist in planning and educate youth and parents to use electronic devices safely; Looking at what is already out there and available and how can we implement in Stark County and

Meeting Minutes

		elevate it; Data from the OHYES! survey said parents do not know how to give information or advice on digital wellness and over 70% of students who completed the survey said their parents do not limit electronic device use often; Exploring options for a consultant to help tailor educational materials and curriculum to Stark County and how we can incorporate what is already being done and include new initiatives. • Mary Helen brought up how TikTok has subtle messaging on body shaming, how can this be addressed with this strategy. • Group is focusing on proper wording to call the project that will give the most information and ensure the most effectiveness. • Looking for more people to join committee who has support and touchpoints with schools to be able to get information from schools on what they are currently doing and what aspects they would like added to the work from what they are seeing firsthand. • Elaine said CommQuest is in 35 schools and recognizing there is room to incorporate more into the work they are doing and give more information. • Second objective for School based workgroup is Behavioral Health support for school staff in the school system; Identifying survey for schools and identifying partners already working in the schools to look at specific schools who are willing to participate in survey and identify what things we could find in our community we could offer to them based

Meeting Minutes

		on what they say; Draft survey has been created and should be sent out before the end of the school year; If you see a potential for where the survey would have high interest in participating or tie in to ask what the educators want while new programs are being developed in the schools, let committee know. • Audrey suggested to give surveys out at staff training days at schools. Look to see what would be the easiest for them to complete survey based on the district. • Improved Patient Access lead by Cindy and Lisa; Pull resources and focus on set of agreed upon strategies. Identify what barriers that are preventing behavioral health access; Looked at research community has already done and agencies that have collected their own data and looked at barrier's patients are struggling with and we are already working on and compared to behavioral health population; Came up with baseline and worked with CMOR to create a survey and collect more data; From this survey, we can then look for funding sources based on what the non-health barriers are in the communities. Could also include a focus group; Transportation has been identified as a main barrier but from further discussion with community members, it might not be the main barrier; Trying to dig deeper into how improvements can be made to improve action that can be taken or more useful. • Patti mentioned a talk that mentioned needing to have more culturally relevant ways to address health and healing
