<u>WERAB ENTERPRISES/FRED'S SEPTIC</u> 1521 BANK STREET, ATWATER, OH 44201 330-947-9902	HYDRO-ACTION	HYDRO-ACTION

Finding a Registered Service Provider

State law requires service providers have the proper credentials to service sewage treatment system

1. Determine your system's Type, and Age by using one or more of the following options:

- Located on a sticker on your unit's control box.
- Listed in your Owner's Manual.
- Located on your septic permit.
- Visit <http://starkhealth.org> for the online "Septic and Well Permit" to find a copy of your permit.

2. Is your system a NPDES permitted system?

- a. If your septic was installed prior to 2007, then “No” your system is not a NPDES. You may search for your System’s Type under the “1. ALL SYSTEMS INSTALLED PRE-2007 OR POST 2007 ON-LOT SYSTEMS” to find an appropriate service provider.
- b. If your system was installed in 2007 or after 2007, but goes from the aerator into a soil based leaching component

3. Contact the Service Provider Company to obtain a contract.

The service provider will inform the Stark County Health Department that you are now under contract.
